

conflict on Ukraine and not admit that he could have done more to bolster our energy independence.

Instead, he is taking the tack that we are now really at a national security level where we are in danger because our Strategic Petroleum Reserve is at dangerously low levels. We withdrew our strategic energy reserves and then sold that to the Chinese Communist Party. You know, Americans all across this Nation are still scratching their heads on that one.

Yet, the President recently spoke of the reduction in fuel costs. Gasoline is going down, and he is happy with that. The fact of the matter is, the national average for a gallon of gas is \$3.52, a dollar more than when Biden took office. It was \$2.39 in January 2021.

His energy policy is an America last policy. It continues to exacerbate the oil supply and demand crisis right here at home. America was strongest when we had energy independence and could rely on our own resources.

Now, I can tell you that for our constituents who are depending on us in Congress to do great things for this country come January, we are going to have some real difficulties because it is not going to be one party, one rule. The Republicans won't have the same benefit of having the Senate and the White House that the Democrats have right now, so it is going to be tougher. We have to make a commitment to America, and we did.

Mr. Speaker, we are going to do everything we can to make this economy stronger and everything we can to make this country safer. A country that is more free, and a government that is absolutely more accountable, that is our commitment to America.

Mr. Speaker, I yield back the balance of my time.
